“The Link between violence to people and violence to animals is well documented ... In its simplest form: violence to animals is a predictor that the abuser may become violent to people ... Abuse is abuse no matter what the form or whom the victim.”

Republican Congressman Rodney Davis is leading efforts to end animal abuse and shut down cruel and illegal cockfighting and dogfighting.

Davis supported the “Pet and Women’s Safety Act” to create criminal penalties for domestic violence, including harming an animal **and he is co-leader of the Bear Poaching Elimination Act**, which seeks to stop the slaughter of bears for their gall bladders for use in Traditional Chinese Medicine.

And Davis helped pass an amendment to the 2018 Farm Bill to ban the sale of dog and cat meat.
